

Day Or Night

Written by Jervis Campbell

Searching all the stars for a sign of hope
Looking for the light that can lead me home
But do I even know myself
Do I even know myself

And trying now to pick up the pieces again
Just to find them all fall further in
And do I even trust myself
Do I even trust?

Lord will you save my mind?
Lord will you make it right?
Cause I feel like a man gone blind
Dont know if its the day or night, oh
Will you save my mind?
Lord will you make it right?
Cause I feel like I'm lost this time
Dont know if its the day or
The day or

The night how it shows the road
Oh I've been a fool to take it on alone
You know that I could use some help
You know that I could use some help

And I just wanna feel that fire again
I just want some healing deep within
I know that its been hard to tell
I know that its been hard to tell

Lord will you save my mind?
Lord will you make it right?
Cause I feel like a man gone blind
Dont know if its the day or night, oh
Will you save my mind?
Lord will you make it right?
Cause I feel like I'm lost this time
Dont know if its the day or
The day or the night

You can change my heart and my mind
You can bring me to the other side
You can change me

You can save me oh
You can change my heart and my mind
You can bring me to the other side
You can change me
You can save me oh

Lord will you save my mind?
Lord will you make it right?
Cause I feel like a man gone blind
Dont know if its the day or night, oh
Will you save my mind?
Lord will you make it right?
Cause I feel like I'm lost this time
Dont know if its the day or
The day or the night
