Eden

Written by Jervis Campbell

[verse]

Born and raised in the darkness still my soul did sing out of a hope that brought tomorrow Of a love that covered me

And the times I felt the farthest Still your love did cling Oh by faith my feet were grounded Couldn't fight your gravity

[chorus]

You're the bones inside my body You're the fire that fills my lungs You're the reason I'm still standing You're the strength to carry on And I wanna know you like it were Eden Like its only the two of us Oh I wanna walk among your presence I want to feel your faultless love

[verse]

So take me out from the harbor And by your light you lead, oh I wanna go to your still waters I wanna sail your silver sea

And I know this life it gets harder But as long as it's you and me Oh I wanna go in full abandon I wanna give you everything

[chorus]

[bridge]
I just want to feel it
