

Friend

Written by Jervis Campbell

[verse]

You call me friend
You call me friend
And your heart you lend
Your heart you lend to me
You call me friend
You call me friend
And your heart you lend
Your heart you lend to me

You call me yours
You call me yours
Though I fall so short
I fall so short at your feet
You call me yours
You call me yours
Though I fall so short
I fall so short at your feet

[chorus]

How I long for your love
I am desperate for your touch
I dont want to take a step without you
I dont want to waste a breath without you
How I long for your love
You have always been enough
I dont want to take a step without you
I dont want to waste a breath without you

[verse 2]

You call me friend
You call me friend
And your heart you lend
Your heart you lend to me
You call me friend
You call me friend
And your heart you lend
Your heart you lend to me

You call me yours
You call me yours
Though I fall so short

I fall so short at your feet
You call me yours
You call me yours
Though I fall so short
I fall so short at your feet

[chorus]

How I long for your love
I am desperate for your touch
I dont want to take a step without you
I dont want to waste a breath without you
How I long for your love
You have always been enough
I dont want to take a step without you
I dont want to waste a breath without you

[bridge]

There is no fault
There is no faith
There is no part of me
That can push you away x4

How I long for your love
I am desperate for your touch
I dont want to take a step without you
I dont want to waste a breath without you
How I long for your love
You have always been enough
I dont want to take a step without you
I dont want to waste a breath without you

Friend

By Jervis Campbell
