

Find You

Written by Jervis Campbell

I don't know
What tomorrow holds
But still I will remain here in your presence

And the days are tough
And the current's rough
But still I'll keep my head above the water

And I don't want to hold back
You know I can't do that
I just want to find you
Tell me how to find you
And I don't want to slow down
I just want to go now
I just want to find you
Tell me how to find you
Tell how to find you

And I hit the wall
When the curtain calls
'Cause now I face the man here in the mirror

And lord I'm done
With being numb
So I will fight for you until I feel

And I don't want to hold back
You know I can't do that
I just want to find you
Tell me how to find you
And I don't want to slow down
I just want to go now
I just want to find you
Tell me how to find you
Tell how to find you

Oh to find your hope
In every low
In every fear
That says I wont
Oh to find your hope
In every low
In every fear

That says I want
Oh to find your hope
In every low
In every fear
That says I want
Oh to find your hope
In every low
In every fear

And I don't want to hold back
You know I can't do that
I just want to find you
Tell me how to find you
And I don't want to slow down
I just want to go now
I just want to find you
Tell me how to find you
Tell how to find you
And I don't want to hold back
You know I can't do that
I just want to find you
Tell me how to find you
And I don't want to slow down
I just want to go now
I just want to find you
Tell me how to find you
Tell how to find you
