

Teach Me to Dance

Written by Jervis Campbell

There's a storm deep inside me raging with thunder
And I know I can't hide it for the tempest it comes
And I can feel it all, the weight of my burdens
I know that I can't do this alone

There's a road set before me, oh, I can see it
Don't know where it's going but Lord I'm afraid
And I have heard the sound, oh, the sound of revival
I just want to walk here in Your ways

[Chorus]

I want it straight in the heart, feed me Your fire
And I know it's so hard but out of darkness I choose
'Cause You are my everything, I want to meet my maker
Oh, teach me to dance so I can dance with You
Teach me to dance so I can dance with You

And these chains that bind me, break them in glory
And don't let me hide it for Your kingdom it comes
Oh the water runs deep, a living testimony
And I know You remain even when I fade
'Cause I know You remain even when I fade

[Chorus]

I want it straight in the heart, feed me Your fire
And I know it's so hard but out of darkness I choose
'Cause You are my everything, I want to meet my maker
Oh, teach me to dance so I can dance with You
Teach me to dance so I can dance with You

[Interlude]

[Chorus]

I want it straight in the heart, feed me Your fire
And I know it's so hard but out of darkness I choose
'Cause You are my everything, I want to meet my maker
Oh, teach me to dance so I can dance with You
Teach me to dance so I can dance with You
